COIMBATORE INSTITUTE OF TECHNOLOGY, COIMBATORE-641014
(Government Aided Autonomous Institution, Affiliated to Anna University, Chennai)
DEPARTMENT OF PLACEMENT CELL

ACADEMIC YEAR 2025-26

STUDENT FEEDBACK

Student Name : Ranjit T N

Roll number : 71762207036

Department : B Tech IT

Personal email id : ranjit030504@gmail.com

Contact number : 9843826655

Company name : embedUR

Company type : core

Salary (ctc) : 8LPA

Intern offered : Yes

Bond : 3 years

(Please comment this section in detail to guide your juniors in a bright way)

COMMENTS ON SELECTION PROCESS:

ROUND 1

Platform used: Quiz

Round details: Online aptitude round.

Topics/Areas Covered:

- General Aptitude
- Logical Aptitude
- Logical Reasoning
- Analytical Ability

Your Comments: Question were of easy to medium level. Timing was an important factor so try to complete the questions faster from the beginning of the test itself. No negative marking was there so try to attend all the questions.

Did you clear this round? **Yes**

Details about questions on 1st round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
Quantitative Aptitude	Profit and loss, work and time, percentage, probability.		https://www.indiabix.com/aptitude/questions-and-answers/
Logical Reasoning	Number series, Letter series, Statement and Argument.		https://www.indiabix.com/logical-reasoning/questions-and-answers/
Analytical Reasoning	Comprehension type questions, Seating arrangements		

ROUND 2 :

Platform used: Microsoft Teams(online).

Round details: **Technical Group Discussion 1**

Topics/Areas Covered: DSA, C, OS, Networks

Your Comments: It was a online technical GD. The interview person will be asking questions from different topics and we have to raise our hand if we know the answer. Try to answer 2-4 questions.

Did you clear this round? **Yes.**

Details about Questions on 2nd round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
C	What is the difference between calloc and malloc? What is the difference between struct and union?		
DSA	Best Sorting Algorithm, What is memory leak?		
OS	What is page fault? Paging and Segmentation. Page replacement policies.		

ROUND 3:

Platform used: Offline

Round details: **Technical Group Discussion 2.**

Topics/Areas Covered: DSA, Crytography, OS, Networks.

Your Comments: It was a offline technical GD. The interview person will be asking questions from different topics and we have to raise our hand if we know the answer. Try to answer 2-4 questions.

Did you clear this round? **Yes.**

Details about Questions on 3rd round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
Cryptography	Difference between HTTP and HTTPS. Working of SSL/TLS		
DSA	What is CRC. Quick sort complexity.		
OS	Mutex and semaphore		

ROUND 4:

Platform used: Offline

Round details: **Technical HR 1.**

Topics/Areas Covered: DSA, DBMS, OS.

Your Comments: It was a one-one HR interview round. Both technical as well as managerial questions were asked. In managerial questions about my family, opportunities of higher studies and question about relocation was asked.

Did you clear this round? **Yes.**

Details about Questions on 4th^t round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
DBMS	What is the difference between SQL and NoSQL.		
DSA	Difference between tuple and dictionary. Difference between assembler, compiler, interpreter.		
OS	Functions of OS. Interprocess communication. Scheduling algorithms.		

ROUND 5:

Platform used: Offline

Round details: **Technical HR 2.**

Topics/Areas Covered: OS.

Your Comments: This was again a technical and managerial round. This focused more on my personal skills. Asked about my coding experiences and other extracurricular and cocurricular activities. Was also asked about my previous interview experiences. Be confident and clear on what you are answering.

Did you clear this round? **Yes.**

Details about Questions on 5th round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
OS	What is deadlock? What are the conditions of deadlock? What is pre-emptive and non pre-emptive scheduling? What is banker's algorithm? Difference between mutex and semaphore.		

ROUND 6:

Platform used: Microsoft Teams.

Round details: **General HR round**

Topics/Areas Covered: Personal and managerial questions.

Your Comments: This round had questions completely on your personality. First they asked to give an intro about me. The HR was totally friendly. Then asked about my project experiences and hackathon experiences. Asked questions about my club activities. They asked situation based questions and some easy questions like how my friends would describe me as a person.

Did you clear this round? **Yes.**

Areas to prepare :

C programming, OS, CN, DBMS, Cryptography

Sites / books you suggest for preparation for the process :

https://www.indiabix.com/aptitude/questions-and-answers/
https://www.geeksforgeeks.org/aptitude/aptitude-questions-and-answers/

https://www.geeksforgeeks.org/operating-systems/operating-systems-interview-questions/

https://www.geeksforgeeks.org/dbms/commonly-asked-dbms-interview-questions/

https://www.geeksforgeeks.org/blogs/networking-interview-questions/

https://www.geeksforgeeks.org/dsa/top-100-data-structure-and-algorithms-dsa-interview-questions-topic-wise/

Overall experience :

The overall interview experience was really good. The total process might take almost a week to complete. The technical GD was totally different in their approach. The HR was very friendly.

General tips:

- Refer to the previous year questions from the students feedback so that you will be aware of the rounds and their process.
- Your resume is your question paper so be clear on what you add it in your resume.
- Be confident during the one-one interviews. They will not be expecting the perfect answer. They will only be analysing whether you can express what you know in a clear and confident manner.
- Do prepare consistently. Practice both theory concepts and coding questions on regular basis.
- And the main thing is don't get frustrated if you not get selected in other companies. Every company, every round of interview is an experience and it all helped me to clear this company's interview.
- Make sure you are strong in your basics and then you can go for the advanced concepts.

TRUST THE PROCESS! ALL THE BEST!

COIMBATORE INSTITUTE OF TECHNOLOGY, COIMBATORE-641014
(Government Aided Autonomous Institution, Affiliated to Anna University, Chennai)
DEPARTMENT OF PLACEMENT CELL

ACADEMIC YEAR 2025-26

STUDENT FEEDBACK

Student Name : DHARUN PRAKASH J

Roll number : 71762204011

Department : B.E.ECE

Personal email id : dharun051204@gmail.com

Contact number : 9080867203

Company name : EmbedUR Systems

Company type : Core

Salary (ctc) : 8 LPA

Intern offered : Yes

Bond : 3 years

(Please comment this section in detail to guide your juniors in a bright way)

COMMENTS ON SELECTION PROCESS:

ROUND 1 : ONLINE APTITUDE ROUND

Platform used: EUR CAP (online)

Round details:

GENERAL APTITUDE : 45 questions were asked and the time limit is 45 mins.

Your Comments:

Try to answer as many questions as possible .There is no negative marking.

Did you clear this round? **Yes**

ROUND 2 : Technical GD 1

Platform used: Microsoft teams

Round details: A group of 8-10 members will be split and this round lasted for 20 mins.

Topics/Areas Covered: All core subjects of ECE . Refer to the table below.

Your Comments:

A question will be asked first then everyone will be answering the same question. Try to answer at first and try to answer all the questions. Study the technical concepts in depth so that you can add more different points if the same question is circulated. Also you can raise your hands then they will allow you tell the answer.

Did you clear this round? **Yes**

Details about Questions on 2nd round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
Electron Devices	PN diode, Zener diode, Photo diode, Transistors (BJT, FET,JFET, MOSFET,UJT) and their V-I characteristics , SCR,DIAC,TRIAC, Avalanche and zener Breakdown, Photo resistor, why silicon is preferred over germanium?, What is Doping?, What is Biasing ,Region of Operation, Q-point,Q-factor.		Class notes, EEE VIDS youtube channel, Neso academy
Control Systems	Difference between positive and negative feedback , Why negative feedback is used ?		Class notes
Operating systems	Semaphore, Mutex, RTOS, Deadlock, Scheduling Algorithms, Explain kernel and its types?		Class notes

Physics	Gauss law, Biot savart law , Ampere circuital law, Faraday law , inductance, Difference between electrostatic and electromagnetic fields , Maxwell equations (Just do not mug up and tell the answer , explain the relation between them)		Class notes or google
Digital Electronics	What is K-map and why is not used for more than 5 variables ? , Need for k -map and need for minimising Boolean expression ,IC number of all logic gates, Canonical form, Laws, Latch, Flip Flop, Difference between SR and JK flip flop, Combinational and Sequential circuits, Mux and De-Mux.		Neso academy and Class notes
Signals and Systems	Different types of fourier transform, Difference between fourier series and fourier transform, Nyqiust Sampling theorem.		Class notes
Digital Signal Processing	Difference between analog and digital filters, IIR filter, FIR filter, Butterwoth and Chebyshev filter, Procedure to convert analog to digital signal.		Class notes
Analog Electronics	Clipper ,Clamper		Class notes
Data Communicati -on and Networks	IP,ICMP,IGMP,IEEE Standards, TCP vs UDP, OSI layer protocols, MQTT, CSMA/CD and CSMA/CA, IPV4, IPV6, ARP,RARP.		Class notes

Linear Integrated Circuits	Op -Amp and its characteristics, PIN diagram of op amp and 555 timer, Types of ADC and DAC, Low pass and High pass Filter ,Which is the most stable oscillator and why is it stable? , Barkhausen Criteria, Amplifier ,Oscillator and its types, Multivibrator , Schmitt trigger, 555 timer, How will you convert amplifier to oscillator?, Rectifier and its types.		Class notes
Network Theory	Super position theorem, Thevenin theorem, Norton theorem, Maximum power transfer theorem (Just know where these theorems are used like to find what ,problems are not needed)		Class notes
Microcontroller and Microprocessor	**8051:** Memory, Interrupt Service Routine and its priority, RAM and ROM splitup, Subroutine, PC, 3 byte instruction. **8086:** Memory, Interrupt Service Routine and its priority, Subroutine, 3 byte instruction.		Class notes
DSA	Sorting, Searching, Most efficient sorting algorithm, Linked list ,Singly linked list, Doubly linked list, Circular linked list, AVL tree and its balancing mechanism, Binary Search Tree, Stacks and Queues.		Class notes

C Language	• Function call stack , • Storage class, • Struct vs Union, • Pre-processors, • Keywords, • Malloc vs Calloc, • Dynamic memory allocation and why is it needed?, • typedef, • memory leak, • inline functions, • call by reference and call by value, • void pointer, null pointer, dangling pointer, double pointer, • macros		Tutorials point, Jenny's lectures.

ROUND 3 : Technical GD 2 (same as Technical GD 1)

Platform used: Offline

Round details: A group of 5-6 members will be split and this round lasted for 10 mins.

Topics/Areas Covered: All core subjects of ECE . Refer to the table which is provided in round 2 .

Your Comments:

A question will be asked first then everyone will be answering the same question. Try to answer at first and try to answer all the questions. Study the technical concepts in depth so that you can add more different points if the same question is circulated. Also you can raise your hands then they will allow you tell the answer.

Did you clear this round? **Yes**

Details about Questions on 3ndround:

Prepare the given subjects and its respective questions in that were given in round 2.

ROUND 4 :

Face to Face interview (offline) 2 vs 1

Duration: 10 mins

Your Comments: It will be technical interview and the questions will be asked rapidly. Try to answer all precisely and never say like you don't know the answer. Say relevant to it.

Did you clear this round? **Yes**

ROUND 5: GENERAL HR

Platform: Microsoft Teams

Round details: General HR

Areas covered: Self Intro, Family background, Personality

Your Comments: Before this round, you will be given with a mindset mapping sheet where you have to rate yourself on certain criteria. Starting from Self intro, then it will be family background check and they will ask to explain why you've given this rating for yourself and you should explain confidently for each.

Did you clear this round? **Yes**

Areas to prepare :

Electron Devices, Control Systems, Operating systems, Physics, Digital Electronics ,Signals and Systems, Digital Signal Processing ,Analog Electronics ,Data Communicati-on and Networks, Linear Integrated Circuits ,Network Theory, Microcontroller and Microprocessor, DSA, C Language.

The Domains and Questions stated above in Round 2 is fully sufficient to crack. Learn each and every topics thoroughly in depth.

Sites / books you suggest for preparation for the process :

- Class notes
- Tutorials point
- Jenny's lectures
- EEE vids
- Neso academy
- All about electronics
- Engineering Funda

Overall experience :

The HR's were friendly and be confident throughout the process. Be patient since the publication of results takes some time.

General tips:

- Most of the questions will be from core subjects and prepare the questions given in the feedback.
- All the questions have been gathered from all years feedback and its given above. Its much more sufficient.
- The entire process may take a long time like a week or two weeks, so don't lose hope in between the process.
- Basic understanding of the core concepts can make you crack the rounds easily.
- The questions in each round will be repetitive at some times.

NEVER LOSE HOPE AND KEEP GIVING YOUR BEST !!!

ALL THE BEST FOR THE FUTURE ENDEAVOURS !!!

Company name : EmbedUR

Company type : IT

Salary (ctc) : 6lpa

Intern offered : yes

Bond : yes (2years)

(Please comment this section in detail to guide your juniors in a bright way)

COMMENTS ON SELECTION PROCESS:

ROUND 1

Platform used:

Round details: Aptitude

Topics/Areas Covered: Quantitative , Logical reasoning , Analytical reasoning

Your Comments: Keep a eye on watch , timing is important

Did you clear this round? **Yes**

Details about questions on 1st round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)

ROUND 2 : Technical Interview

Platform used: Microsoft Teams

Round details: Technical Group interview

Topics/Areas Covered: DSA ,OS, C , Computer networks

Your Comments:

Did you clear this round? **Yes**

Details about Questions on 2nd round:

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
DSA	Finding mid element in a doubly linked list AVL tree , rotation mechanisms		
C	Struct vs Union. , pointers		
OS	Mutex , Semaphore , Deadlock		

Areas to prepare :

Sites / books you suggest for preparation for the process : Geeks for geeks

Overall experience :

General tips:

ROUND 3 : Technical Interview

Platform used: Offline

Same as round 2 but in offline mode , same topics covered

Round 4 : Technical + General HR

Platform used : Offline

Topics/Areas Covered : Questions from core subjects (cloud , AI, Web frameworks mentioned in resume)+ Family background

DOMAIN	QUESTION	Your Approach / Solution	REFERENCES (If any)
DSA	Implementing ques using stack		
CN	Https, Network layer protocols		
OS	Deadlock , banker algorithms
