COIMBATORE INSTITUTE OF TECHNOLOGY

(GOVERNMENT AIDED AUTONOMOUS INSTITUTION)

CIVIL AERODROME POST, COIMBATORE-641014.

PLACEMENT CELL

PLACEMENT YEAR 2024 - 2025

NAME **: SARAVANAN P**

ROLL NUMBER : 71762103036

DEPARTMENT : Electrical and Electronics Engineering (EEE)

EMAIL ID : saravanan16102003@gmail.com

CONTACT NUMBER : **7402666110**

COMPANY NAME **: EmbedUR systems**

COMPANY TYPE : Software

JOB DESIGNATION : Software engineer

SALARY (CTC) : **8 LPA**

INTERN OFFERED ? : Yes

BOND : 3 years

*(Please comment this section **in detail** to guide your juniors in a bright way)*

COMMENTS ON SELECTION PROCESS :

ROUND 1 :

Platform: Quiz

Round details: There were around 50 questions.

Areas covered: C programming, networking, protocols, core engineering subjects (mainly focus on microcontrollers and microprocessors, digital electronics) and general aptitude.

Your Comments: Most of the questions were simple and some questions were also asked from electrical subjects.

Have you cleared the round : YES

Details about Questions on 1st round:

ROUND 2 :

Platform: Microsoft Teams

Round details: Technical Round

Areas covered: Core Engineering subjects

Your Comments: It was a group discussion, basic questions from the core subjects were asked. The interviewer will ask a question and he will call a person to answer. Everyone will be given a chance to answer the questions. Make sure you answer the questions in short and clear manner.

Have you cleared the round : YES

Details about Questions on 2nd round:

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH	REFERENCES (If any)
Linear integrated Circuits	**Op-amp ideal characteristics, pin diagram , Oscillators (Most Stable Oscillator) and Multivibrators Low pass filter, high pass filter, Schmitt trigger and 555 timer**		
Basic physics	**Gauss Law, Ampere circuital law (not only statement explain what is the relation between the elements), , Biot Savarts law, Barkhausen criteria**		

	(literally asked in every round)		
ED	**Diodes & Transistors, BJT, FET, UJT, MOSFET , V-I Characteristics of all devices(explain the regions), avalanche breakdown, zener breakdown, photodiode & photoresistor, Silicon vs Germanium**		
MPMC	**Basics of 8051 and 8086, Memory, ISR, Subroutine, Program Counter, 3 byte instruction.**		
Digital electronics	**Combinational & Sequential circuits, latches & Flip-flops, K-Map, Mux & De-mux, canonical form, need for minimising Boolean gates, Definitions, IC number of logic gates used in Lab**		
C programming	**Storage classes, Struct vs Union, pre-processors, keywords, malloc vs calloc, dynamic memory allocation, memory leak.**		
EMF ,T and D	**Maxwell's equation(important), All laws governing electromagnetic fields. Generation and transmission of voltage and process.**		
DSA (important)	**AVL tree (conditions), linked list(doubly linklist), BST tree, Stack & Queues. Try to cover all topics.**		
DSP	**Fourier Series & Fourier Transform and its uses, nyquist sampling theorem.**		

ROUND 3 : Same as Round 2

ROUND 4 : Same as Round 2

ROUND 5 : Same as Round 2 but held in the company (chennai) ,deciding round

ROUND 6 : Basic general HR questions(Microsoft teams)

AREAS TO PREPARE :

You should be very thorough in the subjects that you learned from the semester 1.

Try to recall as much as you can because the team will scrutinize how strong you are in the engineering concepts.

SITES / BOOKS YOU SUGGEST FOR PREPARATION FOR THE PROCESS :

The class notes are more than enough to crack the initial rounds .
Additionally visit youtube videos of JENNY LECTURES, LOVE BABBAR, TAKE U FORWARD, NESO ACADEMY, ENGINEERING FUNDA, EEE VIDS etc

OVERALL EXPERIENCE :

The experience was quite good and HR were really friendly

GENERAL TIPS :

Take your time to learn new concepts and do not rush at last.
Try to impress the HR with your answers.
It is not necessary to answer all questions but it is crutial to put your answer clearly.
Nothing much was asked about the projects.
Prepare your resume accordingly
DSA is the most important subjects of all.

COIMBATORE INSTITUTE OF TECHNOLOGY

(GOVERNMENT AIDED AUTONOMOUS INSTITUTION)

CIVIL AERODROME POST, COIMBATORE-641014.

PLACEMENT CELL

PLACEMENT YEAR 2024 - 2025

NAME	:	VIVEK NARAYANAN D
ROLL NUMBER	:	71762204214
DEPARTMENT	:	B.E ECE
EMAIL ID	:	vknarayanan2003@gmail.com
CONTACT NUMBER	:	7598708155
COMPANY NAME	:	EmbedUR Systems
COMPANY TYPE	:	Non-Dream
JOB DESIGNATION	:	Software Engineer
SALARY (CTC)	:	8 LPA
INTERN OFFERED ?	:	Yes
BOND	:	3 Years

*(Please comment this section **in detail** to guide your juniors in a bright way)*

COMMENTS ON SELECTION PROCESS :

ROUND 1 :

Platform: Online (EUR CAP)

Round details: It consists of 50 questions which has to be answered in 45 minutes.

Areas covered: Operating system, Microcontroller and Microprocessor, C programming, networking, core engineering subjects and general aptitude.

Your Comments: It will be basic and direct questions and easy to clear

Have you cleared the round : Yes

Details about Questions on 1st round:

ROUND 2 :

Platform: Microsoft Teams

Round details: Group Interview (20 Mins)

Areas covered: Circuit Theory, Analog Electronics, Digital Electronics, LIC, OS, Microcontroller & Microprocessor, Data Communication & Networking, Digital Systems, Signals & Systems

Your Comments: It will be group interview and whoever knows the answer can raise their hand and answer.

Have you cleared the round : Yes

Details about Questions on 2nd round:

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH	REFERENCES (If any)
LIC	Low pass filter, high pass filter, Stable Oscillator and why	Answer whatever you know in a crisp and precise manner	Class notes is sufficient
Circuit Theory	Power Transfer theorem, Thevenin's theorem, Norton's theorem (ALL theorems used to reduce complex circuits)		
Microcontroller Microprocessor	Basics of 8051 and 8086, Memory, ISR, Interrupts & Priority		
DCN	IEEE standards, collision detection vs collision avoidance		

ROUND 3 :

Platform: Microsoft Teams

Round details: Group Interview (20 Mins)

Areas covered: Circuit Theory, Analog Electronics, Digital Electronics, LIC, OS, Microcontroller & Microprocessor, Data Communication & Networking, Digital Systems, Signals & Systems

Your Comments: It will be group interview and whoever knows the answer can raise their hand and answer.

Have you cleared the round : Yes

Details about Questions on 3rd round:

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH	REFERENCES (If any)
Signals & Systems	What are the different types of Fourier Transform, Difference between Fourier Series & Fourier Transform	Answer whatever you know in a crisp and precise manner	Class notes is sufficient
DSP	Difference between analog and digital filters, Procedure to convert analog signal to digital		
Analog Electronics	What is MOSFET, Difference between MOSFET & BJT & UJT, Applications		
Microcontroller	8051 Microcontroller architecture, ROM & RAM size & usage.		

ROUND 4:

Platform: Microsoft Teams

Round details: Group Interview (20 Mins)

Areas covered: Circuit Theory, Analog Electronics, Digital Electronics, LIC, OS, Microcontroller & Microprocessor, Data Communication & Networking, Digital Systems, Signals & Systems

Your Comments: It will be group interview and whoever knows the answer can raise their hand and answer.

Have you cleared the round : Yes

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH	REFERENCES (If any)
LIC	Barkhausen criteria, Amplifier, Oscillator	Answer whatever you know in a crisp and precise manner	Class notes is sufficient
Basic Physics	Gauss Law, Ampere circuital law, Faradays law, inductance, diff between Electrostatic and Electromagnetic fields.		
Digital Electronics	Combinational & Sequential circuits, latches & Flip-flops, K-Map, Mux & De-mux, IC number of logic gates used in Lab		
DSA	Structure vs Union, AVL Tree, Balancing Mechanism		

ROUND 5:

Platform: Offline (Chennai office)

Round details: F2F Interview (2 Vs 1) (10 Mins)

Areas covered: Circuit Theory, Analog Electronics, Digital Electronics, LIC, OS, Microcontroller & Microprocessor, Data Communication & Networking, Digital Systems, Signals & Systems

Your Comments: It will be technical interview and the questions will be asked rapidly. Try to answer all precisely and never say like you don't know the answer. Say relevant to it.

Have you cleared the round : Yes

QUESTION DOMAIN	QUESTION	SOLUTION / HOW DID YOU APPROACH	REFERENCES (If any)
OS	Semaphore, Mutex, RTOS, Applications of RTOS	Answer whatever you know in a crisp and precise manner	Class notes is sufficient
Basic Physics	Gauss Law, Barkhausen criteria		
DCN	IEEE Protocols, TCP vs UDP, OSI Layers, MQTT Protocols, IOT Applications.		
DSA	Structure vs Union, Doubly Linked List		

ROUND 6:

Platform: Microsoft Teams

Round details: General HR

Areas covered: Self Intro, Family background, Personality

Your Comments: Before this round, you will be given with a mindset mapping sheet where you have to rate yourself on certain criteria. Starting from Self intro, then it will be family background check and they will ask to explain why you've given this rating for yourself and you should explain confidently for each.

Have you cleared the round: Yes

AREAS TO PREPARE :

Electron Devices, Circuit Theory, Analog Electronics, Digital Electronics, LIC, OS, Microcontroller & Microprocessor, Data Communication & Networking, Digital Systems, Signals & Systems

SITES / BOOKS YOU SUGGEST FOR PREPARATION FOR THE PROCESS :

- Neso academy youtube channel
- Geeks for Geeks
- Javatpoint
- Class notes

OVERALL EXPERIENCE :

The HR's were friendly and be confident through out the process.

GENERAL TIPS :

- Most of the questions will be from core subjects and prepare the questions given in the feedback.
- Gather all the questions from all years feedback and prepare for the same will be much more sufficient.
- The entire process may take a long time like a week or two weeks, so don't lose hope in between the process.
- Basic understanding of the core concepts can make you crack the rounds easily.
- The questions in each round will be repetitive at some times.

Every interview you're attending is a learning process. Never lose hope on yourself and keep pushing you hard. All the very best for your future endeavours.

COIMBATORE INSTITUTE OF TECHNOLOGY

(GOVERNMENT AIDED AUTONOMOUS INSTITUTION)

CIVIL AERODROME POST, COIMBATORE-641014.

PLACEMENT CELL

PLACEMENT YEAR 2024 - 2025

NAME	: MANOJ N
ROLL NUMBER	: 7176 21 03 083
DEPARTMENT	: B.E.ELECTRICAL AND ELECTRONICS ENGINEERING
EMAIL ID	: manojktg2021@gmail.com
CONTACT NUMBER	: 6380200503
COMPANY NAME	: EMBEDUR SYSTEMS(INDIA) PVT.LTD.
COMPANY TYPE	: NON-DREAM
JOB DESIGNATION	: SOFTWARE ENGINEER
SALARY (CTC)	: 8LPA
INTERN OFFERED ?	: YES
BOND	: 3 YEARS

COMMENTS ON SELECTION PROCESS :

ROUND 1 :

Platform: Quiz

Round details: There were around 50 questions.

Areas covered: : C programming, networking, core engineering subjects and general aptitude.

Your Comments: Focus on our core subjects

Have you cleared the round : Yes

Details about Questions on 1st round:

ROUND 2 : TECHNICAL GROUP INTERVIEW-1

Platform: Microsoft Teams

Round details: Technical Round

Areas covered: Electrical Machines, Transmission and Distribution, Circuit Theory, Electron Devices

,C programming concepts.

Your Comments: It was a group interview among your department, basic questions from the core subjects were asked. The interviewer will ask a question and he will call a person to answer. Everyone will be given a chance to answer the questions.

Have you cleared the round : Yes

Details about Questions on 2nd round:

QUESTION DOMAIN	QUESTION	Solution	reference
Electron Devices	Diodes & Transistors, BJT, FET, UJT, avalanche breakdown, Zener breakdown, photodiode & Photoresistor.		
Electrical Machines	DC machines, Synchronous and Asynchronous Machines, Transformer(losses and working)		
Circuit Theory	Power Transfer theorem, Thevenin's theorem, Norton's theorem(ALL theorems used to reduce complex circuits), Max power transfer theorem		
Power Electronics	PMOSFET, SCR, firing circuits, Triggering methods of SCR, IGBT		

Microprocessors Microcontrollers	Microprocessor Basics of 8051 and 8086, Memory, ISR, Subroutine, Program Counter, 3-byte instruction, stack pointer.		
Transmission and Distribution	Voltage levels (,Generation,transmission,distribution).		
C programming	Storage classes, struct vs Union, pre-processors, keywords, malloc vs calloc, call by reference Vs call by value		
DSA	AVL tree, linked list, BST tree, Stack & Queues. Try to cover all topics.		
Digital Electronics	Combinational & Sequential circuits, latches & Flipflops, K-Map, Mux & De-mux, canonical form, need for minimising Boolean gates, Definitions, IC number of logic gates used in Lab.learn application specific		

ROUND 3 : TECHNICAL GROUP INTERVIEW-2(Same as Round 2)

ROUND 4 : TECHNICAL GROUP INTERVIEW-3(Same as Round 2)

ROUND 5 : TECHNICAL INTERVIEW

Platform: OFFLINE

Round details: Technical round (It could be a one-one / group interview)

Areas covered: Microcontroller-8051,Digital Electronics, Power Electronics, Electrical Machines,

C programming (concepts), DSA (concepts).

Your Comments: Be strong in your Area of Interest and be confident with your answers. Questions were very basic level of core engineering subjects, additionally C Programming.

Have you cleared the round : Yes

ROUND 6 : HR INTERVIEW

Platform: ONLINE

Round details: General HR

Areas covered: self-intro, family background, situational questions

Your Comments: The communication skills were assessed by the interviewer and your attitude plays a vital role and it’s essential to make a positive impression. Try to answer short and crisp. Gather a few information about the company before attending this round.

Have you cleared the round : YES

AREAS TO PREPARE :

Focus on covering the mentioned topics thoroughly, strengthen your understanding of core subjects, and learn with a focus on application-specific knowledge

SITES / BOOKS YOU SUGGEST FOR PREPARATION FOR THE PROCESS :

- Geeks for Geeks
- Java point
- Class notes(core subjects)

OVERALL EXPERIENCE:

The overall process was good and the HRs were very friendly.

GENERAL TIPS :

- Prepare very well on the core subjects.
- Try to answer the technical questions in a short and clear manner.
- Maintain professionalism and positive body language during the technical interview process.
- Remember that each interview is a learning experience. Whether you succeed or face challenges, use it as an opportunity to grow and improve.

Try to cover the above sample questions as much as you can, it will help you the most for EEE dept. students. You can clear ,if you are strong in your basics. Try to ask your seniors for any department specific doubts you have.

ALL THE BEST
